

# The Village of Bald Head Island

## MEMORANDUM

**Date:** April 3, 2009

**To:** Mayor and Council

**From:** Chris McCall, Assistant Village Manager/Development Services Director

**Cc:** Calvin Peck, Village Manager  
Department Heads

**Re:** Weekly Status for 27 MAR – 3 APR 2009

---

**West & South Beach Erosion** – Staff and Council met w/ our Village Environmental Legal team and Village Attorney this week to discuss legal options pertaining to the erosion issues that have been exacerbated due to the Corps maintenance dredging project. The Village will be working w/ Dr. Hearty and Dr. Dorsey on providing documented environmental impacts to the island's habitat areas as one approach to show the negative impacts to our oceanfront that the Corps has created.

There was a public forum held by the Conservancy at the Association on Wednesday that was webcasted to hear a presentation by Dr. Hearty on the erosion issues on West & South beach. The public was invited for a Q&A on the problem and to hear what steps the Village, Conservancy and others have taken to mitigate in the short term and plans for a long term solution.

**BHI Landing Subdivision** – BHI Limited has begun work on installing the new access road to the marina as part of the BHI Landing Subdivision. The new road will wrap around the Island Passage and overnight parking lot.

**Status on Major Project On-going** – See attached spreadsheet
