RE: Residential Drinking Water Well Information Request for [REDACTED], BALD HEAD ISLAND, NC 28461

Dear Owner/Resident/Tenant:

Chemours has begun a drinking water well testing program in New Hanover, Brunswick, Columbus and Pender counties. The testing is being performed per the revised Interim Four Counties Sampling and Drinking Water Plan (Plan). The revised Plan was submitted to North Carolina Department of Environmental Quality (NCDEQ; <https://deq.nc.gov/>) on April 1, 2022.

The purpose of this letter is to request information about the source of your drinking water. Chemours is in the process of identifying private drinking water wells that may qualify for testing. The water will be tested for the 12 per- and polyfluoroalkyl substances (PFAS) compounds listed in the Consent Order (CO) and also other non PFAS compounds.¹ Please complete the form below and return in the envelope provided or call (910) 678-1100 and leave a message. A team member will call you back within three business days. For more information, please check the Fayetteville Works website at: <https://www.chemours.com/en/about-chemours/global-reach/fayetteville-works>.

Sincerely,

Dawn M. Hughes, Plant Manager
Chemours – Fayetteville Works

Name: Current Resident

If incorrect, add correct name here: _____

Address: [REDACTED]

BALD HEAD ISLAND, NC 28461

If incorrect, add correct address here: _____

I own this residence: Yes No I live at this residence: Yes No

This home is connected to public water: Yes No
