Don't miss the tip of the week on the next page!

Bald Head Island Department of Public Safety

Tip of the Week

SEVERE WEATHER SAFETY PLAN

Three **basic** things everyone in your home or business should know...

1. Pick A Spot

Find a safe, interior room, preferably the lowest level in the building, and let everyone know that's where they should go during severe weather

2. How To Get In Touch

Everyone should know how to reach one another afterwards. In disasters, texting is often better than calling.

3. Choose a "Meet Up Spot"

It's a good idea to have a standard meet up spot that everyone knows.
