System Pressure Advisory Rescinded

The Village of Bald Head Island Utilities Department has rescinded its October 2, 2022 system pressure advisory issued to ALL consumers on Bald Head Island. Bacteriological analysis results of the drinking water sample collected shows NO Coliform bacteria present. The system has resumed normal operations.

This order is hereby rescinded on October 3, 2022, by:

A handwritten signature in black ink, appearing to read "JP McCann", is written over a light-colored rectangular background.
