System Pressure Advisory Rescinded

The Village of Bald Head Island Utilities Department has rescinded its November 9, 2023, system pressure advisory issued island-wide. Bacteriological analysis results of the drinking water sample collected shows NO Coliform bacteria present. The system has resumed normal operations.

This order is hereby rescinded on November 11, 2023, by:

A handwritten signature in black ink, appearing to read "JP McCann", is written over a light-colored rectangular background.
