System Pressure Advisory Rescinded

The Village of Bald Head Island Utilities Department has rescinded its July 18, 2026, system pressure advisory issued for 111, 113, and 115 North Bald Head Wynd.

Bacteriological analysis results of the drinking water sample collected show NO Coliform bacteria present. The system has resumed normal operations.

This order is hereby rescinded on July 21, 2026, by:

A handwritten signature in black ink, appearing to read "JP McCann", is written over a horizontal line.
